

Learn what's being done ABOUT GUN SAFETY.

In a sweeping effort to promote safe and responsible firearms ownership, the National Shooting Sports Foundation develops and supports programs to reach the 80 million+ gun owners of America. Programs to encourage safe storage. Programs to educate first-time shooters. Programs to help keep guns out of the hands of criminals. For nearly 50 years we've been an advocate for gun safety, education and responsible enjoyment of the shooting sports. NSSF-driven public safety efforts include:

PROJECT CHILDSAFE: This nationwide firearm safety education program is offering FREE firearm safety kits (35 million to date). Learn more at: www.projectchildsafef.org

FIRSTSHOTS: Never fired a handgun before? This is a FREE opportunity to learn the safe and proper way. Now at a range near you: www.firstshots.org

DON'T LIE FOR THE OTHER GUY: Buy a gun for someone who can't, and you face serious fines — and serious jail time. Learn more at: www.dontlie.org

Our aim is to educate gun owners and the public about safe enjoyment of the many shooting sports. Please visit our sites for ways to get involved. Learn more about the National Shooting Sports Foundation. Visit: www.nssf.org
